APPLICATION FOR BUILDING PERMIT

The following items must be submitted to the Code Enforcement Officer before a Building Permit will be granted:

- [] A completely filled in application must be submitted. The written Scope of Work must accurately describe the work covered by the Building Permit. Additional work not described will require another permit and applicable fees.
- [] A plot plan of the parcel depicting the well, septic, existing buildings and proposed new construction is required. Delineate the area from building structures existing and proposed to all property lines. Distance measured in feet must be shown to the front, sides and rear property lines. Plan must be drawn to scale and accurately dimensioned.
- [] This application must be accompanied by TWO complete sets of plans showing the proposed construction and TWO complete sets of specifications. Plans and specifications shall describe the nature of the work to be performed, the materials and equipment to be used and installed, and details of structural, mechanical, electrical and plumbing installations. **Our office conducts a full plan review as required by the NY Department of State. Allow at least two to three weeks for this review, or longer depending on the current workload.**
- [] Proof of liability insurance for the contractor must be submitted.
- [] New York State requires proof of Workers' Comp and Disability or proof of legal exemption from them. Please use the guidelines on the back of this sheet to determine which forms need to be submitted. Submitting incorrect forms will delay issuance of the Building Permit.
- [] New home construction will also require a copy of the survey, an engineered plan for the septic system and the submission of a septic permit application.
- [] **A site visit will be required before any permit is issued.** New buildings and additions other than second story additions will require the following: The property boundaries must be marked and easily recognizable. The footprint of the structure must also be designated. An additional flag identifying the front of the structure must be placed for new buildings.
- [] Cash or check made payable to Town of Catskill for the permit fee.

Upon approval of this application, the Building Department will issue a Building Permit to the applicant together with an approved, set of plans and specifications. Such permit and approved plans and specifications shall be kept on the premises available for inspection throughout the progress of the work. **All changes to plans must be reported via a change order from the design professional.** The permit will only be honored for the scope of work for which it has been issued. No work is to commence until the Building Permit has been granted.

The required inspections will be checked off on your Building Permit. It is the **homeowner's** responsibility to ensure these inspections are scheduled. Our office needs at least 24 hours advance notice when scheduling. Final inspections and obtaining the Certificate of Occupancy or Certificate of Compliance is also the responsibility of the homeowner.

No building shall be OCCUPIED or USED in whole or in part for any purpose whatsoever until the Final Inspection has been passed and a Certificate of Occupancy has been granted by the Building Department.

APPLICATIONS ARE NOT ACCEPTED WITHOUT INSURANCE REQUIREMENTS

Each application must be accompanied with current insurance forms as determined below

******* INSURANCE REQUIREMENTS *******

***** **SCOPE OF WORK** *****

Indicate with sufficient clarity and detail the nature and extent of the work proposed. Furnish plans, material lists, and any other documentation to substantiate that the proposed work will comply with the Uniform Code and the State Energy Conservation Construction Code.

The applicant agrees to the following requirements:

A. All electrical work must be performed by a Greene County Licensed Electrician.

B. All work shall be performed in accordance with the construction documents submitted and accepted as part of this application. The Code Enforcement Officer shall be notified immediately in the event of changes occurring during construction. Any deviation from the approved plans must be authorized, by the approval of revised plans subject to the same procedure established for the examination of the original plans. An additional permit fee may be charged predicated on the extent of the variation from the original plans.

C. All required construction inspections must be performed before continuing to the next stage of work. Failure to schedule inspections will result in a Stop Work Order. Digital pictures will not be accepted in lieu of physical inspections.

D. The work covered by this application MAY NOT be COMMENCED before the issuance of the Building Permit.

E. No building shall be OCCUPIED or USED in whole or in part for any purpose whatsoever until the Final Inspection has been passed and a Certificate of Occupancy has been granted by the Building Department. Violators will be subject to fines and/or imprisonment.

APPLICATION IS HEREBY MADE to the Building Department for the issuance of a Building Permit pursuant to the New York State Uniform Building Code for the construction of building, additions or alterations, or for the installation of swimming pools, as herein described. The applicant has read above requirements and agrees to comply with all applicable laws, ordinances and regulations.
